

LiveData Planner for Anesthesia

SEE SURGICAL AND PROCEDURAL CASES AT ONCE

Track Staffing Needs Online

Procedure rooms see high amounts of case turnover and schedule changes. *Planner* lets schedulers and managers move anesthesia staff between procedures and ORs. Clinical staff can track and coordinate anesthesia needs from their desk.

Display Boards Keep Everyone Informed

Is an anesthesia provider required? Now you know at a glance. All clinicians can see the hospital's schedule on award-winning real-time digital displays.

Schedule More Cases, Faster

LiveData tools allow clinic schedulers to view and request open slots, before waiting for the hospital to reach out or respond. Additional workflow tools automatically coordinate preop workups, avoiding cancellations.

Customized Briefings Inside the Procedure Room

Take timeouts and anesthesia preparation seriously - and enter details automatically - with digital checklists, a Joint Commission Leading Practice.

Anesthesiologist-in-Charge? Take charge.

With *Procedure Suite Planner*, LiveData's #1-Rated OR Management Platform^[1] extends to Procedure Rooms. Featuring a coordinated, integrated calendar for anesthesia, Planner unites your same-day and advance planning across the OR and procedure suites.

Replace disconnected paper, phone, and whiteboard communications with a solution that anyone involved with anesthesia can use. They'll easily keep track of staff locations across surgery and procedure rooms, and cut back on the work needed to shuffle staff around. You and your team can always recognize where you're supposed to be.

Easy to implement and compatible with leading EHRs, LiveData delivers ROI to over 85 hospitals across 43 states. Put anesthesia planning front and center — with the tools your team needs to stay efficient, prepared, and informed.
