

LiveData PeriOp Manager Analytics™

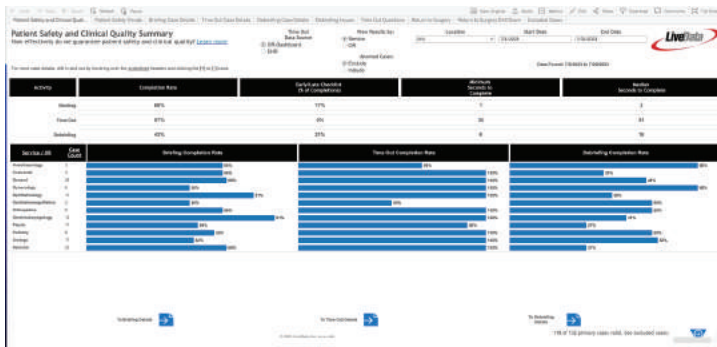

LiveData PeriOp Manager Analytics™ automatically collects and organizes detailed real-time data about your hospital's perioperative performance to provide a comprehensive view of surgical operations. With this unmatched insight, clinicians and administrators uncover, identify, and target opportunities to increase capacity and efficiency, optimize utilization, improve patient and staff satisfaction, and patient safety.

Starting with PeriOp Manager Analytics' high-level overview, operating room managers explore data by service line, surgeon, operating room, and case to reveal patterns and associations that identify opportunities to increase surgical volumes and capacity, and reveal areas for improvement.

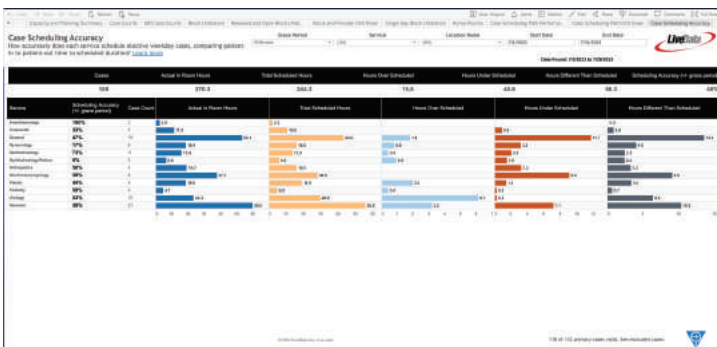

PATIENT SAFETY AND CLINICAL QUALITY

Detailed, real-time data ensures compliance with safe surgery timeouts before, during, and after surgeries to help hospitals identify areas where they can safeguard patient safety and comply with safety policies, procedures, and regulations. Metrics include Patient Safety Trends, Briefing Case Details, Time Out Case Details, Debriefing Case Details, Time Out Questions, Return to Surgery, Return to Surgery Drill Down, and Excluded Cases.

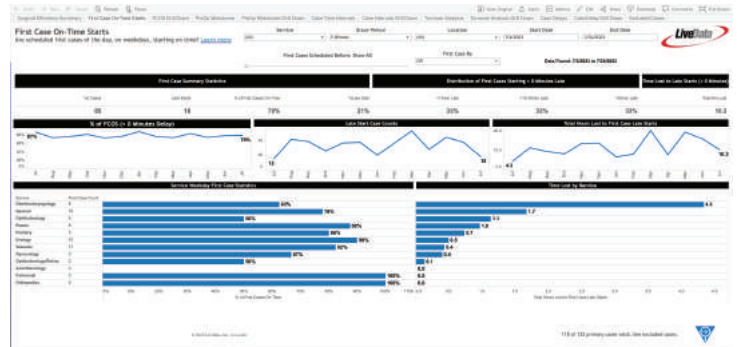

SURGERY CAPACITY AND PLANNING

Track Block Utilization, Released and Open Block Utilization, Block and Provider Drill Down, Single Day Block Utilization, Active Rooms, Case Scheduling Path Performance, Case Scheduling Path Drill Down, Case Scheduling Accuracy, Case Scheduling Drill Down, Procedure Case Duration, Operating Room Utilization, Single Day OR Utilization, Case Cancellations, Case Cancellation Drill Down, PreOp Workup Completion, PreOp Workups Drill Down, and Excluded Cases.

SURGICAL EFFICIENCY

Measure First Case On-Time Starts, FCOS Drill Down, PreOp Milestones, PreOp Milestones Drill Down, Case Time Intervals, Case Intervals Drill Down, Turnover Analysis, Turnover Analysis Drill Down, Case Delays, Case Delay Drill Down, and Excluded Cases.

PeriOp Manager Analytics transforms real-time operational data into intuitive, actionable quality, compliance, and efficiency insight. To learn more about LiveData PeriOp Manager Analytics, please visit our website at www.livedata.com
